Providing Trauma Focused Care

When: April, 25, 2013 (9:00-12:00)
Where: Days Inn Conference Center
       Sutton, WV

The goal of the training is to provide information regarding trauma and the impact of trauma.

Objectives:
1) The participant will be able to understand the impact of traumatic experiences
2) The participant will be able to identify components of trauma informed care
3) The participant will be able to identify evidence based practices in treating trauma

CEU’s will be available for Counseling and Social Work & Registered Nurses
