Program	Youth Demographics	Contact Information
<b>Woods Services</b>	<b>6-21 Males and Females Pennsylvania</b>	<b>215-750-4000 www.woods.org</b>

**Autism-** The program is specifically designed to address the treatment needs of individuals on the lower end of the autism spectrum. The persons served in this program will have a functioning level consistent with intellectual disability, whether or not someone has actually applied that classification. The individuals will also have significant deficits in conceptual, social, and practical adaptive functioning in all of the individuals to be served in this program.

**Other populations:**

- Traumatic Brain Injuries
- Prader-Willi Syndrome
- Developmental Disabilities
- Emotional and Behavioral Challenges
- 

**Evidenced Based Practices**

- Pivotal Response Training
- Applied Behavioral Analysis
- Cognitive Behavioral Therapy
- TransDisciplinary, NeuroFunctional approach, Clubhouse Model and Executive Skills Training
