Psychiatric Residential Treatment

The typical student admitted to Kingston Academy is a child showing signs of emotional, sexual or physical abuse due to some form of psychopathology trauma or stress. Our children are often being physically aggressive to their self or others. Students typically show a low degree of empathy for others, have poor means-ends reasoning, are impulsive, have problems with anger control and aggression, are irresponsible, deny and/or justify negative behaviors, pride themselves on antisocial values and behaviors, lack self-discipline, and are counteractive and non-compliant with authority. IQ-50 and above.
